SPECIALISED COMMERCIAL SIGNAGE DISPLAYS
UNPARALELLED CHOICE IN ANY SPACE

LH51 INTERACTIVE SERIES
STRETCH YOUR CONTENT
IN ANY DIRECTION

Our 92" and 105" UW5K displays with 21:9 panoramic view offer optimum flexibility for all environments utilising landscape and portrait orientation.

Experience a true 21:9 Panoramic Ultra-Wide view for all your content and applications with the iiyama LH51 SERIES. The displays show vibrant and larger than life imagery and videos using 5K resolution to make the difference.

Whether installed in mission critical control room facilities or vibrant digital signage for high end retail spaces, these iiyama large format displays come with a super sleek thin bezel design.

Designed to perform in continual, around the clock environments, the LH51 SERIES can be installed and utilised in landscape and portrait orientation to create the most stimulating imagery in any space.

With sizes like 92" and 105" everyone will benefit from the ultrawide experience that the LH51 SERIES delivers with clarity.

SPECIALISED PANORAMIC COMMERCIAL SIGNAGE

21:9 - ULTRA WIDE

Experience a true Panoramic view for all your content and applications.

STANDALONE SOLUTION

Unlock all of the security and flexibility of Windows IoT with the optional OPS Slot PC.

5K - 11MP

Vibrant and larger than life imagery and video using 5120x2160 resolution to make the difference.

USB-C CONNECTION

Delivers the latest in video, audio and Touch signal, all through one port and even charges your device with 100W power delivery.

IPS PANEL

IPS stands for in-plane switching. IPS displays provide the best viewing angles and natural, highly accurate colours. Especially suited for colour-critical applications.

FLEXIBLE ORIENTATION

The ability to position the displays in landscape or portrait orientation means you can make the most of any space and bring your messaging, advertisements, videos and safety information to your audience.

LH60 SIGNAGE SERIES
ELEVATE YOUR VISUAL MESSAGING

Elevate your visual communication and unlock new possibilities for your business with the ideal all-in-one signage solution.

The **LH60 SERIES** are powerful business tools to elevate your marketing and communication efforts to new heights. Get total control of your messaging and advertising remotely and safely.

Featuring Android 11 OS, iiSignage² (Content Management System), Signal FailOver, and EShare functions, these screens offer a seamless user experience, making content creation, management, and sharing a breeze.

These ELED VA displays consume significantly less power compared to DLED IPS while maintaining the same level of brightness. Their versatile orientation, sleek design, and 24/7 reliability ensure seamless integration into any business environment. WiFi enabled, this series is ready for remote content delivery using your network.

With sizes from 43", 50", 55" and 65" everyone will benefit from the non-stop high performance and reliability that the **LH60 SERIES** delivers.

ELEVATE **YOUR** VISUAL MESSAGING

ANDROID

Enjoy total flexibility for digital signage in any space. Thanks to Android OS you can easily customize the display to your needs by installing applications directly to it.

MEDIA PLAYBACK

Playback video, information, or company messages; whatever you require, these large format displays are the ideal marketing solution. The LH60 SERIES packs powerful punch and can be displayed anywhere, anytime.

SIGNAL FAILOVER

The FailOver feature ensures your content is always actively displayed through your choice of inputs.

IISIGNAGE²

Take your marketing and communication efforts to the next level. The iiSignage² Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely.

ULTRA SLIM

With 50 percent depth saving over similar models, these jaw-dropping 40mm total depth displays can be installed discretely and elegantly in all areas.

FLEXIBLE ORIENTATION

The ability to position the displays in landscape or portrait orientation means you can make the most of any space and bring your messaging, advertisements, videos and safety information to your audience.

LH65 SIGNAGE SERIES
VIVID-BRIGHT DISPLAYS
FOR ILLUMINATING COMMUNICATION

Create dynamic, show stopping content, designed to entice and captivate your audience.

The **LH65 SERIES** vivid-bright displays, boasting 800cd/m², can be operated in landscape or portrait orientation in continual around the clock environments 24/7 without any interruption. Its versatility can be adapted to your industry's display needs.

On-board Android 11 OS means you can easily customize the display to your needs and smoothly run third party applications, including multiple CMS platforms. The on-board iiSignage² (Content Management System) gives you total control of your messaging and advertising remotely and safely.

The Signal FailOver feature ensures your content is always actively displayed through your choice of inputs for mission critical environments. The built-in (and removable) WiFi module means this series is ready for remote content delivery using your network.

IISIGNAGE²
4 SIMPLE STEPS TO REACH YOUR AUDIENCE

iiSignage²

STEP 1
UPLOAD CONTENT

01. Upload multiple types of media (Image, Video, Web Content) to your resource library

02. Videos/QR codes/Web Content can be embedded into Images/Slide show of Images

03. Create distinctive Content programs with the media uploaded

STEP 2
SCHEDULE PROGRAMS

01. Schedule Content based on days of the week, any date and time in advance

02. Add different content programs to the schedule based on any requirement

03. Individual displays can have their own schedules set with the location's specific content programs

STEP 3
SHARE ON DISPLAY

01. Each of the displays can be identified by its specific name and can be grouped together based on indiviual requirements

02. The displays have their individual/ grouped schedules for the uploaded content

03. The displays can be programmed to shut down and turn on based on your schedule

STEP 4
DAILY MANAGEMENT

01. Get regular/ timed screenshots of the content running on your screens.

02. Stay up to date on what programs are assigned to the screen and get real time screenshots of what is running on the display.
