**Effortless cross-platform collaboration; share, stream and edit content from any device directly on the screen with the ScreenSharePro app.**

With this 2.4 GHz/5 GHz dual WiFi Module and the ScreenSharePro app you can transform your team meetings or lessons into an easy, fast and seamless cross-platform collaboration session without the hassle of switching cables, platform dependent connectors, passwords or different resolutions and inputs. Users can directly push their content from their device onto the screen.

The OWM001 is available for the 68- and 03-series professional large format displays. To use ScreenSharePro users need to install it on their devices and be connected to the same WiFi network as the display. Maximum of 4 users can be connected at the same time.
