IFP INTERACTIVE DISPLAYS

INFORMATION

43" All-in-One PCAP Interactive Display inspired by technology and designed for creative spaces and sharing

Enjoy an all-in-one interactive display that combines the best in PCAP Touchscreen technology, offering the versatility and freedom of Android OS, easily customized to your needs by installing applications directly to it. Offering a powerful, yet flexible user experience, fostering creative communication with the benefits of a secure and controllable Touchscreen.

The refined edge-to-edge glass design of the TF4339AS-B1AG lends itself for integration into a large variety of environments where polished design and functionality are needed, like Huddle spaces in the modern office space, Retail shops and Kiosks.

The on-board iiSignage² CMS (Content Management System) gives you total control of your messaging and advertising, remotely and safely. The EShare App enables you to bring effortless ideation and efficient collaboration in your enterprise or school. You can start sharing wireless easier than ever before; while the FailOver feature ensures your content is always actively displayed through your choice of inputs

For ease of integration, the TF4339AS-B1AG can be equipped with optional external mounting brackets (OMK4-3).

Android OS

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.

4 SIMPLE STEPS

iiSignage²

iiSignage² is our digital signage content management platform to easily show and control your content and to manage your displays in a secure way. The Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely.

Retail Instalations

The interactive 4K Touchscreens are the key for immersive interactive experiences for spatial retail design. Allow customers to explore your website right there and then or engage with a range of creative or experiential applications you want to host. The flexibility of either landscape or portrait modes with 24/7 Operation, built-in Android and MediaPlayer make this SERIES displays one of the most adaptable Touchscreens solutions around.

Huddle Spaces

Turn these small meeting rooms into neat Collaboration spaces by employing the embedded applications like Android OS, EShare and Whiteboard, a selection of intuitive and practical tools installed on our PCAP interactive Touchscreens. With Android OS you can easily customize the display by installing applications directly to it. With the EShare app you can share, stream and edit content from any device directly on screen and transform your team meetings into an easy, fast and seamless interactive session.
