ProLite X2377HDS - a 23'' LED backlit LCD Screen featuring IPS Panel technology which is considered to be the best all around panel type. This IPS panel offers accurate and consistent colour reproduction with wide viewing angles (178°/178°) and great response time (5 ms black-to-black). The ProLite X2377HDS is full HD, has a 5 000,000:1 Advanced Contrast Ratio and 250 cd/m² brightness offering the user clear and vivid images. An array of inputs including HDMI, DVI and VGA connections ensure compatibility across a range of devices including games consoles and work stations. The Prolite X2377HDS has two integrated stereo speakers and is VESA mount compatible. It will provide both excellent performance for photographic, design and web-design and is also an excellent choice for Universities, Corporate and Financial Markets, as well as the rapidly expanding demand for Multi Monitor applications.
