

27" WQHD monitor providing extra workspace and flexibility

Close e-mail to check data in excel. Put yet one more book under the monitor stand to make sure you're looking at the screen at a comfortable angle. Or – choose a monitor that will solve these problems for you. Meet the XB2788QS offering WQHD (2560 x 1440) resolution meaning the screen can accommodate almost 77% more information than a Full HD display. E-mail and excel will fit in nicely next to each other. In addition, the monitor uses IPS technology panel guaranteeing accurate and consistent colour reproduction with wide viewing angles, high contrast and brightness values. It will provide excellent performance for photographic and web design. And if you want to adjust the screen position to your preferences, simply slide the monitor up or down. Yes, the stand is height adjustable. Buy it at an iiyama Authorized Reseller to enjoy your 3-year on-site-swap warranty. If the height adjustable stand is not a must for you, check out X2788QS-B1.

IPS Technology

IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications.

WQHD

With true WQHD 2560 x 1440p resolution your monitor is ready to display high definition images. This means you can accommodate more information on your screen, i.e. over 76% more in comparison to a 1920 x 1080 monitor.

01 DISPLAY CHARACTERISTICS

Diagonal	27", 68.5cm
Panel	IPS Panel Technology LED, matte finish
Native resolution	2560 x 1440 (3.7 megapixel WQHD)
Aspect ratio	16:9
Panel brightness	350 cd/m ²
